Ambilly, France (Geneva area) · French · 25/07/2002

AI Project Manager with experience in finance and healthcare environments: delivery support, planning, and stakeholder alignment. Based in Ambilly, commuting to Geneva. Bilingual French and English.

SKILLS

Project delivery (scope, plan, client communication), methods and tools (Agile, Jira, Confluence, Excel), Technical (Python, SQL, AI), soft skills (adaptation, team player, proactive)

PROFESSIONAL EXPERIENCE

SmartTrade technologies, *Aix-en-Provence, France* — Jul 2025 – Dec 2025
AI Project Manager Intern

- Supported 3+ Swiss banking clients on the FX platform: delivery follow up, ticket tracking, and configuration.
- Defined the scope and built project plans, milestones and deadlines for deliveries.
- Investigated 100+ platform issues through log analysis and SQL queries and scripts.
- Built an AI-based configuration matching tool that reduced configuration search time by 10x, accelerating client onboarding and improving team efficiency.

Siemens Healthineers, *Erlangen, Germany* — Apr 2024 – Aug 2024
Prototype Developer Intern at OpenIT Studio

- Delivered 5 digitalisation use cases by building low code app prototypes and Power BI dashboards to support process automation.
- Conducted requirements analysis using user centered methods, including Design Thinking.

Junior Mines Provence, *Aix-en-Provence, France* — Mar 2023 – Mar 2024
Vice-President

- Student-run IT consulting firm (Junior Entreprise) with national reach (over €10k in revenue).
- Managed strategy, partnerships and alumni relations driving growth and team (+10 members) cohesion.
- Advisor for the new mandate in terms of HR processes, strategy and management.

AI RESEARCH PUBLICATIONS

Co-published two research papers on transformer-based playlist recommendation systems, accepted for presentation and demo track at ACM RecSys 2025, a top-tier international conference.
